Infradax selects Datacenter.com for Colocation

Amsterdam, the Netherlands, May 24, 2019 -- Datacenter.com, a channel-focused provider of on-demand colocation services, today announced Infradax B.V. (Infradax) has selected Datacenter.com's data center infrastructure to supports Infradax vital mission critical services. Infradax is using Datacenter.com colocation services in Amsterdam to deliver Backup-as-a-Service and resiliency services solutions in a reliable, high availability environment.

Infradax, the leading global service & hardware partner offering customized solutions and services that enable customers to reduce costs and risks in all stages of their IT lifecycle, chose Datacenter.com because it provides highly secure, energy efficient data and flexible colocation services for their critical managed services.

Tjeerd van 't Veld, Managing Director of Infradax "We are operating vital mission critical managed services for our clients, so uptime, reliability and security of our platform is uppermost. Datacenter.com provides more depth and strength in all these areas than we can achieve ourselves ad their services allow us to focus on adding value to our clients."

"We are pleased to welcome Infradax to our data center facility in Amsterdam and as new member of our partner ecosystem. I am looking forward collaborating with them. They share our values of ethical IT and it is a natural fit for them to place their critical infrastructure in our highly secured data center", said Jochem Steman, CEO of Datacenter.com.
